Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months thirteen dollars less than the above named prices, to Boston or Albany, and other places in proportion. This will not include the pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions according to the undermentioned dietary scale; doctor in attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

2 lbs. of Beef; 2 lbs. of Sugar; 5 lbs. of Oatmeal; 2½ lbs navy bread; 1 lb. wheat flour; 2 lbs rice.

Children under twelve years of age (not including infants), are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.

As soon as our Liverpool House informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their future steward.

Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of immigrants, that as owners of the two LIVERPOOL and BOSTON PACKETS, they have determined that their Immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants.

In calling public attention to the subjoined list of the Ships which comprise our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and safe passages made by these Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusually rapid passages.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. The Ships have all the modern improvements which conduce to health and comfort, as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence. The Captains and Officers have been selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance for Passengers. As Train & Co. have made such arrangements in Liverpool as will PROTECT their friends from the frauds and impositions sometimes practised there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

### Milwaukee and Mississippi Rail Road.

The Annual Meeting of the Stockholders of the Milwaukee and Mississippi Railroad was held at the Depot in this city yesterday. The attendance was large and much interest evinced in the progress and prospects of this pioneer Rail-Road enterprize of our State. The Fifth Annual Report of the Directors, which was submitted to the Stockholders in the morning, and which we shall endeavour to lay before our readers in full, gives a most satisfactory account of the business of the past year, and confirms the highest anticipations of those who have all along projected that the road would be a productive one. The gross receipts for 1853 (on 70 running miles) are thus stated:

| | |
|---|---|
| From Passengers | $ 78,635 34 |
| " Freight | 142,820 28 |
| Total (exclusive of materials transported on construction account) | 221,455 62 |
| Expenses of operating road, repairs to track, cars and engines, salaries &c. | 87,115 48 |
| Nett Receipts | $ 134,340 14 |
| Deduct interest paid on Construction bonds | 58,200 00 |
| Applicable to dividend on $698,600 of stock, being Balance of cost of that part in operation | $ 76,140 14 |

The Board at a meeting on the 5th instant declared a dividend of *ten per cent* ($69,880) payable in stock, leaving a surplus of $6,260,14.—This is highly satisfactory.

The road was opened to Stoughton (80 miles from Milwaukee) on the 2d of January. By the terms of the Cooke and Sherwin contract it was to have been opened to Madison on the 1st; but the Contractors failed to fulfil. The grading, bridging and masonry, however, on this additional section, is nearly all completed; the ties, rails &c. for the superstructure on hand, and an expenditure of $20,000 will finish it up. The road will be finished and opened to Madison without fail, ready for the Spring business. Beyond Madison to Prairie du Chien on the Mississippi, the route has been surveyed, and the line located and partially graded to the Wisconsin River. The contract with Mr. A. L. CATLIN, of Burlington, Vt., for the construction of this portion of the road has been *cancelled* on terms satisfactory to both parties and for reasons set forth in the report. The Com any are therefore in a condition to put the work under contract to the Mississippi at any moment they may deem it expedient to do so, and the Directors announce the determination to press it forward with all possible despatch consistent with economy and a proper regard for all the interests involved.

The Reports of the Secretary, Treasurer and Superintendent accompany that of the Directors From the Superintendent's we learn that 75,975 passengers have been carried over the road during the past year without the slightest injury or accident of any kind to one of them—and that 67,000 tons freight have also been transported, besides a very large amount on construction. Two Passenger and two Freight trains have run daily (Sundays excepted) during most of the year.—The Superintendent speaks of the road, as far as built, as equal to any of the first class roads, and describes the line West of Madison as remarkably direct, with easy grades and of cheap construction. During the year buildings for the Company (Freight Warehouse, Brick round house, machine shop &c.,) to the amount of $20,925 have been erected in this city; 14,885 rods of fence, costing $13,396, have been put up and Passenger and Freight stations have been built at Fulton $2,688, at Stoughton, $3,633, and at Madison, $4,400. The Machine Shop, Car House &c., at Waukesha were sold in July last to Messrs. Case & Pullen for $12,000; the Company taking in pay 75 box cars at $625 each, and 25 platform cars at $525 do. This establishment at Waukesha will henceforth be able to supply the Company with cars. The Equipage of the road includes 8 Passenger Cars, 4 Baggage do, 171 Freight, 40 Gravel, 13 Hand do, and 11 Locomotives. The sum of $87,115,48 for operating the road during the past year, *includes all kinds of repairs and expenses*, as well on construction as on running account. This is but *thirty-nine and one-third per cent* of the gross earnings; a fact which speaks volumes for the careful, vigilant and economical supervision which has characterized the management of the road.

The total amount of freight bound westward, during the year 1853, is as follows:

| | |
|---|---|
| Merchandize, lbs., | 15,254,764 |
| Sundries, lbs., | 1,745,139 |
| Lumber, feet, | 7,927,100 |

| Shingles, | 5,525 |
| Coal, lbs., | 1,467,960 |
| Iron, lbs., | 5,198,572 |

| Linseed oil, bbls | 22 |
| Mill feed, lbs | 764,092 |
| Lead, lbs | 725,564 |
| Shot, lbs | 110,201 |

The statement of the Secretary, Wm. Taintor, shows the amount of capital stock subscribed up to Dec. 31, 1853, to be 15,422 shares, or $1,542,200—on this there remains unpaid 511,319,24.

But space fails us and we must cut short our remarks. We advise our readers, however, especially those who feel interested in this great work and who have anxiously watched its progress, to possess themselves of the Report of the Directors and see how abundantly the enterprize has vindicated the confidence of its projectors and on what a solid and satisfactory foundation it now stands.

☞ A destructive fire occurred at Utica on the 3d inst., demolishing the stores of J. M. Stocking, hat dealer, and Samuel Lightbody, merchant. The aggregate loss beyond insurance, is $12,000.

### The Bedini Trouble.

The Mayor of Cincinnati has made a report to the city council in regard to the Bedini trouble. The pith of the matter is contained in the following paragraph:

"In conclusion, I will briefly state that no man deplores the unhappy occurrence of that night more than myself. But that every act of cruelty was committed by the watchmen, is a great mistake, for I have very reliable information, that several persons, well known to the community, yet over whom I have no control, mingled in the *melee*, and used great violence. But that some of the prisoners were cruelly beaten in the Watch-house, as it is alleged, is a circumstance that has caused me much sorrow, and has left a stain on our whole department, not easily obliterated—This matter I shall thoroughly investigate and apply such remedies as may be in my power."

We learn from the *Unionist* that warrants were to be issued for the arrest of nearly all the members of the Police who were actors in the occurrance.

The Cincinnati *Gazette* ridicules the pretence of the Mayor that others beside the police were concerned in the attack upon the German procession, and sharply censures that officer for keeping out of the way, on the night the affray occurred, and now seeking to throw upon others the responsibility of an act which he himself authorized, but shrank from executing, or directing in person.

M. AND M. RAIL ROAD ELECTION.—The annual election for Directors of the Milwaukee and Mississippi Railroad Company, was held yesterday The attendance of stockholders was very large, nearly a million of stock being represented (most of it in person,) and 9863 votes having been cast. The old Board was re-elected, several of them unanimously, and the others by overwhelming majorities. The following are the Directors elect, with the votes they respectively received:

| | | | |
|---|---|---|---|
| John Catlin, | 9863 | H. L. Dousman, | 9863 |
| E. B. Wolcott, | 9863 | J. Goodrich, | 9863 |
| G. H. Walker, | 9858 | S. H. Alden, | 9859 |
| A. E. Ray, | 9915 | A. Finch, Jr., | 9859 |
| W. A. Barstow, | 9586 | E. Cramer, | 9850 |
| J. Cobb, | 8906 | A. Mitchell, | 8412 |
| S. C. Hall, | 8175 | H. Crocker, | 8054 |
| | E. D. Holton, | 7197. | |

The *Wisconsin* of last evening speaks of "an opposition ticket," on which the name of Mr. CHAS. E. WENDT appears. Mr. WENDT was the Commissioner for the 1st Ward, and fineligible as Director. His name was used without his consent, and did not receive his own vote.

### The Erie Enlargement.

The Whigs of the New York Legislature have come up promptly and heartily to the work of expediting the enlargement of the Erie Canal—an improvement in which the entire West feels a lively and growing interest. Joint resolutions providing for such an amendment of the Constitution, as will admit of an increased expenditure for this purpose, have already passed both Senate and Assembly with but two dissenting votes.—The question will probably be submitted to the people at a special election during the winter, and as no doubt exists of their approval, we presume that all necessary measures for the vigorous prosecution and speedy completion of the enlargement will be perfected before the session closes.

### The Legislature.

Our State Legislature assembles at Madison today. The Session ought not to extend beyond six, or eight weeks, and will not, if members consult the wishes and interests of the tax-payers. The Governor's Message will be delivered to-day, or to-morrow. The three prominent candidates for the Speakership are F. W. HORN, of Ozaukee; J. H. KNOWLTON, of Lafayette, and D. NOGGLE, of Rock. For the other offices in the Senate and Assembly there are, as usual, hosts of applicants.

EXTRA SESSION IN ILLINOIS.—GOV. MATTESON of Illinois has issued his Proclamation convening the Legislature of that State in Extra Session on the 10th of February next. A great effort is made to induce the Governor of Michigan to call an extra session in that State. In Ohio, where Biennial Sessions are the rule, as in Illinois and Michigan, Extra Sessions are of annual occurrence. Upon the whole, the plan of Biennial Sessions does not seem to work well. Brief and busy annual sessions—such as Rhode Island and Vermont have—answer a better purpose.

GREAT WESTERN RAILWAY.—The Detroit *Advertiser* of Saturday last states positively that the Great Western Railway will be completed from the Niagara to the Detroit River on Saturday of this week. The Grand Celebration takes place at Detroit on Monday next, 16th instant, and according to the Detroit papers, will be a magnificent affair. The road will be opened for business on Wednesday, the 18th inst.

OSHKOSH CITY BANK.—The bills of this new Bank begin to appear in our city. They are tasteful in design and remarkably well executed. JAMES KNEELAND, of this city, is President of the Bank, and B. S. HENNING, Cashier. The facilities afforded by this institution will no doubt be appreciated and improved by the business men of Oshkosh and vicinity.

SENTENCE OF A MAIL ROBBER.—SELAH MATTHEWS, indicted in the U. S. District Court, for robbing the mail at Watertown, plead guilty yesterday and threw himself on the mercy of the Court. Judge MILLER sentenced him to five years imprisonment in the State Prison at Waupun.

GRAND JURY PRESENTMENT.—The Presentment of the Grand Jury in the U. S. District Court, which will be found in our columns this morning, contains some excellent suggestions and deserves as we hope it may receive, the early and favorable attention of Congress.

DEATH OF A MEMBER OF CONGRESS.—The telegraph announces the death of Mr. HENRY A. MUHLENBERG, Member of Congress from Pennsylvania. In consequence of his death, no business was transacted in either House yesterday.

U. S. SENATOR FROM KENTUCKY. The Legislature of Kentucky yesterday made choice of JOHN J. CRITTENDEN, one of Kentucky's noblest sons, as U. S. Senator from that State.

HOW FARMERS CAN HELP BUILD RAIL ROADS.—A correspondent of the *Ozaukee Times*, in the last number of that paper, thus speaks of the way in which Farmers can help to build Rail Roads, without incurring undue pecuniary risk and applies the argument to the case of the Lake Shore Rail Road from this city to Manitowoc:

*Friend Bird*—I have of late given some attention to the subject of Railroads, and their benefit to the country through which they pass, and the facility of our country to procure the means to construct the same.

My attention was first drawn to the subject by becoming personally acquainted with the indomitable perseverance and success of the Milwaukee and La Crosse Railroad Co., as the report of Mr. Clinton will evidently show a fair prospect of a speedy completion of the road, the success of which is mostly attributed to the fact, that the farmers and others interested on the route, have vigorously waked up to their own interest in the matter.

I find from figures, and that, too, at a moderate calculation, that the benefits derived from the structure of the La Crosse road to the farmers of Dodge county alone, would be more than sufficient to build the entire road from Milwaukee to La Crosse.

I have ever deemed it suicidal to the best interest of the farmer, to mortgage his farm to secure stock in any railroad, and have so expressed my opinion to those who had thought of so doing; but on more mature reflection, and thorough investigation, have changed my opinion in this respect. Facts and figures show that good farmers can mortgage their farms to secure stock in any railroad in this country, (provided there is no parallel road within twenty miles,) at a moderate rate of interest, on fifteen or twenty years time, and thereby benefit themselves at least from five to ten per cent per annum in securing a home market, and an unavoidable increased value to their farms, and at the expiration of the fifteen or twenty years, as the case may be, they will have paid up their notes and have a handsome little sum left, which they have received from the dividends of the road, without actually having paid one cent out of their own pockets, and still retain their original stock in the road.

In view of all these facts, why will not the farmers and all others who are, or should be interested in the construction of the Lake Shore Railroad from Milwaukee to Manitouwoc, come and lend their aid to a company who are willing and desirous to continue this road to Manitouwoc?

### THE LEGEND OF HEINZ VON STEIN.

We find the following stanzas in a number of our exchanges, credited to that decidedly funny paper, the San Diego *Herald*:

Out from the dark wild forest,
Rode the terrible Heinz von Stein,
He paused at the door of a tavern,
And gazed at the swinging sign.

Then he sat himself down in a corner,
And growled for a bottle of wine,
Up came with a flask and corkscrew
A maiden of beauty divine.

Then he sighed with a deep love longing,
And said, "Oh damsel mine,
Suppose you just give a few kisses
To the valiant Ritter von Stein."

But she answered, "The kissing business
Is not at all in my line,
And surely I shall not begin it,
On a countenance as ugly as thine."

Then the knight was exceedingly angry,
And he cursed, both coarse and fine,
And he asked her what was the swindle,
For her sour and nasty wine!

And fiercely he rode to his castle,
And sat himself down to dine;—
And this is the fearful legend,
Of the terrible Heinz von Stein.

### Account of Capt. Gunnison's Massacre given by one of his Party.

By a letter received in this place on Tuesday night, by Mrs. Gunnison, wife of the late Capt. Gunnison, we have the following sadly interesting details of his massacre, as given her by Lieutenant E. G. Beckwith, of the 3d Artillery, an accomplished officer of his surveying party. We premit premise that the same mail brought also a letter to his wife from Capt. Gunnison, written on the 13th of October, in which he mentions having "made friends with an Utah Indian, who had been with me for a week until last Saturday, when he put out again for his squaw and pappoose." May not the pretended friendship and subsequent treachery of this faithless savage have led to the fatal tragedy?

"I have not a moment left, in which to convey to you the particulars of this mournful event, and I cannot allow the cold but piercing tongue of rumor to convey first this intelligence. If exertions of mine can prevent it. Capt. Gunnison, with Mr. R. H. Kern, Mr. Creutzfield, Mr. Potter, his guide, John Bellows, who you know was much attached to the Captain, and seven soldiers, in all a party of twelve, all well mounted and armed, on the morning of the 25th left our camp, on the Sevier, about fifteen or twenty miles above the lake of that name, to make reconnoissance of the same—the remainder of the surveying party and escort moving in an opposite direction, at the same time exploring the river above. Each party traveled during the day about fourteen miles distant. This day having been cold, blustering and snowy, Capt. G. had encamped early—our party being longer, encamped later. The night was cold, but passed quietly and comfortably in each camp, no sight or sound disturbing the repose of the sleeping or waketul. Each of your husband's party, himself included, had passed a part of the night on guard—this, too, when all believed no unusual danger impended in this Indian country, it being the ordinary vigilance of parties traveling here. At early dawn in the morning of the 26th;—fatal hour in all Indian lands—all your husband's party were awake, and at once engaged in the various duties of a camp preparation, for an early start to the Sevier Lake. Ere the sun arose, the savage war-whoop rang out through the silent plain, from the willow thickets that almost surrounded the camp, at a distance of twenty or thirty yards—this devoted band having pitched their camp in the narrow, grassy, bottom of the river, sheltered from the winds, and well supplied with fuel and grass. The fatal arrows and deadly bullets of a large band of the Pah-Utahs, perhaps, here, however, knows as Pah-Vans or Pah-Vantis, as they call themselves, crossed each other in all directions. There was a general call to arms, and all was confusion, and but few shots fired.

Your husband stepped out of his tent and calling to his murderers, informed them that they were their friends. But they nevertheless continued to fire. All attempted to effect their escape from so close an ambush, but no shelter offered, the whole country around being an open, extensive plain, and only those were successful who succeeded in reaching their horses, the most of which ran off from fright at the first fire and could not be caught. Four in this escaped, leaving eight dead, in or near the camp. Captain Gunnison fell, pierced with fifteen arrows, all received while facing his foes. Those who escaped, were pursued towards our camp for many miles, and continued on the height of their powers while their horses could stand, and then running on foot, reached us at eleven o'clock and thirty minutes of that morning. All our armed men were immediately mounted, Capt. Morris and Lieut. Baker leading them rapidly to the fatal spot—a band scarcely larger than that already slain—hoping to see some who might have escaped or held out for so long a time. The bodies of the killed were as they had fallen—your husband's a few yards from the camp."

### MILWAUKEE.

We have had occasion to visit Milwaukee.—How wonderful are the changes which have taken place in three years. Then it was a city, true, of fair proportions, and a great many inhabitants, and commanded quite an extensive interior Trade, and her commercial business as a Lake Shore Town, was a fair proportion—they had no reason to complain. It is vain to attempt to draw a comparison between its business and prospects then, and its importance and the advantages which surround it now. We shall not attempt it further than as a passing remark—Then, they had no Rail Roads, nor Plank Roads; and the city limits were hardly half its present dimensions. Its growth is onward, and its prospects are brightening every day. Rail Roads in reality, come and go, puffing and whistling on their way through deep forests, that a few years ago were the scourge of the wary Tenanter, and what is still more flattering and promising, Rail Roads are soon to span out in all directions, like so many arteries, to gather in from all parts the elements, upon which to "fatten and grow sleek." Milwaukee is indeed a place of much note already. Her business men are of the first order—the Hotels of the first class—large Blocks erected with taste and symmetry—large and commodious stores; and when they shall ferry Lake Michigan to Grand Haven daily, for the purpose of hitching to the great chain of railway to the Atlantic, which they confidently contemplate doing; complete the Lake Shore Road, and the Milwaukee and Mississippi, and Milwaukee and La Crosse, and the (by no means least in importance) *Milwaukee and Berlin* Roads, why then, they are accessible from all points of the compass; are tributary to none of the cities in the West, not even St. Louis, can snap the finger of defiance, and say "We pay tribute to none of you." There too, is the Milwaukee Press—worthy of mention in the best penned description of "place and things." It would be hard indeed to single out a city of the age of Milwaukee, and very many far its senior in years, which combines a greater amount of energy, of talent, and enterprize. Once think of it; a city still-in the "short pack," with five Daily papers—all of the first order—in their way: issuing upon Steam and Power principles. The *Sentinel* and *Gazette*, by Rufus King & Co., is printed upon a power press, propelled by steam, and is probably the most systematic and well arranged establishment in the State. The *Wisconsin*, by W. E. Cramer, preserves its well earned reputation as a careful sifter of the News of the day, and is a beautiful mechanically arranged paper—the publisher evidently prides himself in making a good *newspaper*. The *News*, by Daniel Shaw, would seem to be one of Jupiters most unruly offsprings—full of zeal—and—an uncompromising energy to any thing in the shape of *proslem or anti*; and after all there is nothing hideous, in the appearance of the editor, but we must say that we found him a good looking, companionable fellow. The *Free Democrat*, by S. M. Booth, notwithstanding its fiery opposition, in the start, is neither dead or laid out, but from appearances, has every evidence of a long life. But then, we have gone beyond our limits, and must leave our Milwaukee neighbors in their glory, without passing to notice the hundred other things which might properly claim a mention.—*Marquette Mercury.*

A NEW PLATFORM.—Mr. T. D'Arcy McGee, in the first number of the "Celt" (published at Buffalo) for the present year, thus lays down his platform:

"We hold: I. That hereditary Catholic policy of Ireland is, the true policy for all the Irish at home and abroad. II. That Irish Protestants have, of course, equal political rights with Catholics, but that in recognizing them, we do as citizens, as fellow-countrymen, not as Protestants. III. That the practical part of the Duffy and Dargan "industrial policy" is good, but the nonconformism naturally following it is a danger to be guarded against. IV. That the Mitchel and Meagher policy of sinking our historic Irish cause in the conspiracy of the "Universal Democracy," is an abominable innovation, favorable only to English designs. V. That European Monarchy (ever since Protestantism), has gone on centralizing all power into a few great cities, and that this evil cries loudly for reform. VI. But that such reform ought not to be granted to the daggers of the *solidarite*. VII. That the *solidarite* is a Devil's parody on God's Church; that its "creed," its "martyrs" and its "inspiration" are all alike anti-Christian and detestable. VIII. That England is the patron and London "the city of refuge" of the *solidarite*, and that in joining or encouraging it, our radicals are doing the work of England. IX. That the Irish race have no quarrel—but the very contrary—with France and Austria. X. That American Democracy, constitutionally understood, is true Conservatism, while European Democracy is anarchy and destruction. XI. That Free-soilism is incipient anarchy, and ought to be resisted in every form it has taken or may take. X. That resistance to European, is entirely consistent with devotion to American, Democracy.

Noah Smith et al vs. Abram Cames—Geo W Lakin Piff Atty. Judgement.

The Grand Jury of the United States for the District of Wisconsin, respectfully represent:

That they have directed their attention to the public offices of the United States in the City of Milwaukee. They find that the office of the Collecter of the port is kept in a very small building, and entirely insecure as a place for the safe keeping of the public money. The Post Office is in a brick building, but the room occupied is not large enough for the business of the office.—The offices of the Marshal of the District and the Clerk of the Court, are in Martin's Block, a large and well constructed building, occupied as stores and offices. All these offices are in rented buildings in different parts of the city, and none of them are fire proof, or secure against thieves or burglars. The business of the Post Office is very extensive. The papers in the Marshal's office require a safe place of deposit, as also the funds required to be on hand. From the report of the Clerk of the Court it appears that thirteen hundred and sixty causes have been brought in the court in the short time since its organization; whereby the papers and records of that office are of immense value and importance, and should be more secure against fire and theft. The rooms for the Court and offices connected therewith are not sufficient for the business of these offices, and the accomodation of the juries. The rents are increasing with the growth of the city and county, and the business in these offices is increasing in the same proportion.

The Grand Jury for these reasons believe that the public interests require the erection, in the City of Milwaukee, by the United States, of a suitable building for the Custom House, Post Office, and the Courts and Offices connected therewith, and respectfully request that this presentment be filed in the court, and that a certified copy thereof be transmitted by the Clerk of this Court to each of the Senators and representatives in Congress from this State.

B. K. MILLER, Clerk.

A BRIGHT DAY.—The weather yesterday was superb, tho' the snow suffered considerably under the bright beams of the sun and the warm breath of the Southerly breeze. The night, too, was splendid, a cloudless sky, invigorating air and a moon three quarters full offering irresistible incentives to a sleigh-ride. We noticed a number of parties, large and small, improving it.

THIRD WARD FUND.—The Aldermen of the Third Ward make a good report, in our columns this morning, of their expenditure during the past year. Why not devote a portion of their surplus to paving East Water Street.

REAL ESTATE SOLD.—A lot 20 feet front on East Water Street, running back 130 ft. to the river, adjoining Bradley & Metcalfs lower store on the South, sold yesterday to J. PLANKINTON, for $4,500.

HIRAM CHURCH,
*Clerk of Street Com'rs, 3d Ward.*

MILWAUKEE, Jan. 2, 1854.

* The Mil. Gas Light Co.'s bill, to March, '53. was due before the coming into office of the present board, making the amount actually expended by the present board of Aldermen $2933,11, leaving a balance unexpended of $2433,21.

Curing grass for hay by Steam.

This is an age of bold innovations of old customs. We have one to propose which is worthy of the consideration of our State Agricultural Society, and now is the time to think about it, that premiums may be offered, or the matter at least discussed at the January meeting of the members and executive committee. It is to solve the question of curing grass for hay—that is, discharging the water from it by steam instead of the slow imperfect process of drying it in the sun, often interrupted by rains and the product injured or spoiled. Now, if saturating it with steam will have the effect, as we believe it will to cure it, so that an hour of sun will dry it, or so that it may be preserved with salt, it opens a new era in the use of steam for agricultural purposes. The process need not be a very expensive or laborious one. Let the grass be heaped up as fast as cut and covered with India rubber cloth.—Then a pipe from a steam boiler, mounted upon a wagon, may be inserted under the center of the pile, and steam applied to a degree of heat strong enough to almost cook the whole heap; at any rate to prepare it for very rapid sundrying. We believe, from some experiments which we have seen in drying other vegetable substances, that green clover may be prepared in three hours for safely stowing away in the barn. By using metal caps instead of oil cloth, the process of steaming may be continued to a degree sufficient we wish to see settled, and that is what the agricultural societies should determine. Steam has already been applied to carry manure to the field, plowing the ground, and threshing the crop. No doubt it will be soon applied to sowing the seed and reaping, as well as mowing, and it only remains to cure the green grass as fast as cut, by the same powerful agent.

This is not a chimera unworthy of thought.—It is a subject which sooner or later will attract the serious attention of that portion of farmers who do think. Try it, if you please, on a small scale; take any succulent plant and subject it five minutes to steam, and then place it in the sun, and see how quick it will become as dry as well cured hay. Apples, peaches, &c., can be dried by steam in one day. If grass cannot be cured by steam, let us know verily.

Will it be any more wonderful than it is now for a farmer to leave home at Buffalo in the morning and sell his crop the same day in New York, for him to get up in the morning and call for John "to get out the mowing machine and small locomotive, and cut down that fifty acre lot of clover, to-day, and tell George Henry to fire up the hay-maker and follow Alexander and William with the steam raking machine, and cure the grass as fast as it is cut, and I will come down with the four wagons, and let us see how much of that crop we can have safe in the barn before night. Peter!"

"Yes sir."

"Peter, you may fire up the barn engine, and see that the hoisting machine is all right on both sides of the fall one, for I shall bring two tons at a load, and while one ton is going up into the right-hand mow we can hitch on to the other and have that up directly, so it will not take over fifteen minutes to get off a load. In the intervals between loads, keep the engine at work filling the great water tank; the last planting of potatoes need watering, and as soon as the water is warmed in the sun a little, we will give them a shower. Ah, boys, this is the age of steam: you don't have to work to cure hay as I used to when I was a boy: when we used to cut all the grass with a scythe—"

"By hand, father?"

"Yes my son, by hand, slow hard labor; and then we had to spread the grass to dry, and then turn it over and over in the sun with sticks or wooden forks, or clumsy iron ones; we had no steel ones then; and then we raked it by hand and made it up in cocks, which had to be opened and spread out to dry again, and again raked up; then we pitched it on and off of the wagon, and sometimes it was a fortnight after it was cut before we could get it cured enough to stack or put in the barn."

"And all this by hand-labor?"

"Yes, hand labor and hard labor."

"Well, father, it does app

### NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont) printed and ready to launch, ready for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the 31st day of July. He is limited for the season at fifty two mares, two of them my own. It is claimed by those owning the Black Hawk Stock that stands so high in Vermont, that the *original* Black Hawk was sired by the old Sherman, the grandsire of my horse. If it is so, the same cross blood can be raised in this State, and at a far less expense than to import them from Vermont; that was one reason for my bringing Comet Morgan West. His pedigree is fully authenticated.

HUNTER'S CELEBRATED

Pulmonary Balsam or Cough Syrup,

PREPARED BY

CURTIS & PERKINS, DRUGGISTS,

BANGOR, MAINE.

Proof Positive—Skeptics Read—Testimony! Testimony!!

HAMPDEN, Feb. 24, 1846.

MESSRS. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year dealt in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, so well calculated to operate so favorably in all the cases of the lungs as that is. I have known a hard distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was brought to have a settled consumption, troubled with a hard distressing cough. He took three bottles, and he took two more of your Agent, Mr. Whitmore. After using the 5 bottles, he has become well, and now labors every day. He told me lately, that Hunter's Cough Syrup was the means of only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it to the cross afflicted with coughs, for your benefit, but for the benefit of suffering humanity.

DR. HUNTER'S MEDICAL MANUAL AND HAND BOOK FOR THE AFFLICTED—Containing an outline of the origin, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse, by solitary or by sexual excess, with advice for their prevention, written in a familiar style avoiding all medical technicalities, and everything that would offend the ear of decency, by the author of more than twenty years' successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, a Treatise on the cure of the above diseases, and a treatise on the causes, symptoms and cure of the Fever and Ague, for twenty-five cents a copy; six copies one dollar; will be forwarded to any part of the United States, by mail, free of postage, on address, post paid, to Coaden & Co., Publishers, or "box 196, Post Office, Philadelphia.

This is, without exception, the most comprehensive and intelligible work published on the class of diseases of which it treats. Avoiding all technical terms, it addressed itself to the reason of its readers. It is free from all objectionable matter and no parent, however fastidious can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and "while he thinks he can lay claim to little presumption to impose," he has offered to the world at the merely nominal price of 25 cents, the fruits of some twenty years most successful practice."—HERALD.

"No family should be without a work which may be imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—TRANSCRIPT.

A Presbyterian clergyman in Ohio, in writing of "Hunter's Medical Manual," says: "Thousands upon thousands of our youth, by evil example and the influence of the pernicious literature that is afloat, are led into self-pollution without realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are annually being sent unbidden, to the untimely tomb, are broken down, and they do not know the cause or the cure. Any thing that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance, (or the use of intoxicating drinks,) bought in less than thousands upon thousands, is not a greater scourge to the human race.—Accept my thanks on behalf of the afflicted, and, believe me, you can do worse in the good work you are so entirely engaged in."

One copy will be forwarded (securely enveloped and post-age paid) on receipt of 25 cents, or six copies for $1. Address, COWDEN & CO., Publishers, Box 196, Philadelphia. Booksellers, Canvassers and Book Agents, supplied on the most reasonable terms. nov21 1y

DR. URBAN'S

ANTI-BACCHANALIAN ELIXIR:

A Safe and Sure Remedy for the Cure of

INTEMPERANCE.

IT is not in the least injurious to the system. It is pleasant to the taste, and will cure the hardest cases of intemperance. We *warrant* it, in all cases, if taken according to directions. It destroys the desire for all ardent spirits when strictly taken according to directions, and will restore the individual to the same state of sobriety in which he was before he ever drank a drop of the ardent, and he will not have the least desire for intoxicating drinks.

Intemperance is a disease; and as such the greater the excess in drinking, the more speedily is the disease developed, and in such the Elixir is presented as the basis of ciliad—the oil of consolation, peace and perfect restoration.

The more fully developed is the disease the more salutary and powerful the effects of this Elixir at once destroying the appetite for spirits, and restoring the tone of the stomach so as healthy, an action as it was before drinking a drop of ardent spirits; and when intemperance has assumed this diseased form, reason is measurably dethroned, the will to a certain extent becomes ungovernable, until often, alas! many have passed the bounds of sober restraint, and though they may desire, in their sober moments, to abandon the use of that which is so rapidly proving their bane, they cannot, unaided, and no aid has ever been tendered such, with success, until the discovery of Dr. Urban's nervine filling Anti-Bacchanalian Elixir; since which time none are known to reason, as the means necessary to destroy the taste, and again enthrone reason, bringing the will into perfect subjection, by extracting the poisonous sting and implanting in the place thereof, a perfect hatred for the very name of liquor, and the rosy cheeks of the w
